

FEEDBACK

Hadi Saada from Tripoli, Lebanon

This one-week course at Stolzalpe exceeded my expectations by far! From taking lectures by renowned physicians to hands-on workshops, this course gives the best insight into the field of orthopedics. I definitely recommend it to all orthopedic surgery candidates or even any medical student who might be interested in the field. Whether you have a good orthopedics base, or are just being introduced to it, don't miss this chance to gain invaluable knowledge while enjoying the Alpine scenes!

Can't wait to revisit Stolzalpe!

Best regards,
Hadi Saada
